

This system protects from the exterior.

- Skin
- Hair
- Nails
- Epidermis
- Dermis
- Subcutaneous layer

Protection and movement

- Movement
- Strength
- Protection
- Cardiac muscle
- Skeletal muscle
- Smooth muscle

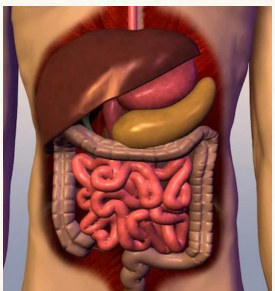

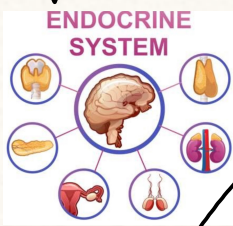

human body systems

Male Female

Producing Babies

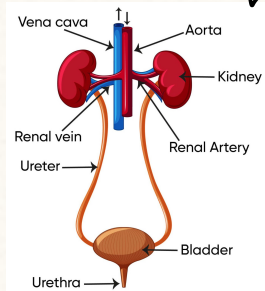

Hormones

- Adrenal gland
- Thyroid
- Pancreas
- Pituitary
- Brain
- Ovary
- Testicle
- Thymus

Ingest and digestion of food, absorbs nutrients

- mouth
- teeth
- saliva
- tongue
- esophagus
- epiglottis
- stomach
- pancreas, liver, gallbladder

Urinary System

Waste products are collected as urine.

- Bladder
- Renal Artery, etc.

Integumentary

Immune

Reproductive

Endocrine

Digestive

Excretory

Respiratory

Respiration and Breathing

- Nose
- Pharynx
- Larynx
- Bronchi
- Lungs
- Alveoli
- Diaphragm

Skeletal

Muscular

Nervous

Circulatory

- Heart
- Veins
- Arteries
- Capillaries
- Red blood cells
- White blood cells
