Math	Introduction to Numbers (0-5) Activity: Number Line Creation Create a large number line on the floor with tape. Students will place number cards (0-5) on the line. Discussion: Talk about what each number represents.	Greater Than, Less Than, Equal To Activity: Comparing with Objects Use counters or blocks. Students compare groups of objects (e.g., 2 blocks vs. 4 blocks). Discussion: Introduce symbols: >, <, =.	Hands-On Comparison Activity: Comparison Games Play a game where students choose two numbers and use counters to show which is greater or less. Discussion: Reinforce the concepts with visual aids	Storytime and Comparison Activity: Story with Numbers Read a story that involves numbers (e.g., "Five Little Ducks"). Ask students to compare quantities mentioned in the story. Discussion: Relate the story to their own experiences.	Art and Review Activity: Create a Comparison Chart Use drawings or stickers to represent numbers (0-5). Students create chart showing greater, less, or equal comparisons. Discussion: Review what they've learned through the week.
