Math	Activity: Hands-On Comparison · Use small objects (like blocks or toys) to compare quantities. · Ask questions like, "Which group has more?" and "How many are there in each group?"	Activity: Number Line · Create a number line on the floor with tape. · Have children place numbers on the line and compare two numbers by identifying their positions.	Activity: Card Game · Use number cards (1-20). Each child draws two cards and compares them using the symbols. · Have them say which number is greater, lesser, or if they are equal.	Activity: Online Games · Use educational websites or apps that focus on comparing numbers. · Spend time playing a game that reinforces the concepts learned.	Activity: Comparing Relay · Set up a relay race where children have to pick two objects, compare them, and state which is greater or lesser before running back.
Conversation	Introducing different shapes and how many sides in each shape. Example: Square has four sides. <i>Worksheets about shapes</i>		Continue discussing different shapes using songs and a game <i>Worksheets about shapes</i>		

Ethics				محادثة الطلاب عن موسم قطف الزيتون، وان شجرة الزيتون شجرة مباركة . مشاهدة فيديو تعليمي عن القطف ،ومراحل عصر الزيتون	
Science		·Activity: Sorting Game Create a sorting activity with pictures or objects of solids, liquids, and gases. Have students sort them into the correct categories.		Activity: Matter Scavenger Hunt Go on a scavenger hunt around the classroom or outside to find examples of matter (solid, liquid, gas). Discuss what they find and where it fits in the categories	Activity: Matter Review Game ·Play a simple review game like “Matter Bingo” or “Guess the Matter” where students identify types of matter based on clues.
